## ***What Is The Study About?***

We are interested in exploring how women with Trisomy X describe their anxiety and if it has any impact on their overall quality of life.

## ***Who Can Participate?***

Recruiting young women ages 18-30 years with a non-mosaic Trisomy X diagnosis. Participants must have access to a computer or smart phone/tablet and be able to speak English.

## ***What Is Involved?***

You will participate in one virtual focus group with 4-8 people that will last approximately 1-1.5 hours.
