

# VOICES Study Recruiting Youth With Klinefelter Syndrome

We want to understand your medical care and related experiences

## What's the purpose of the study?

Researchers at Nationwide Children's Hospital are developing a tool to better understand the medical and related experiences of youth with Klinefelter syndrome.

## What will happen during this study?

Participants will be asked to complete a survey online or over the phone. The survey will take about 30 minutes. Survey questions will ask about medical and other experiences related to having Klinefelter syndrome.

## Who can take part in this study?

Youth age 11 through 18 years who have a diagnosis of Klinefelter syndrome.

## Will youth be paid for the study?

Yes, youth will be compensated for their time.

## How can I learn more or get involved?

Families can reach out to Hailey Umbaugh to get more information. There is a brief screening questionnaire that families can complete to learn whether the young person qualifies for the study:

Phone: (614) 722-4710
