

Volunteers Needed for Research Study on Transition to Adult Care for People with Klinefelter Syndrome (47,XXY).

Do you have Klinefelter syndrome and are currently or have recently navigated the transition from pediatric to adult care? You may be eligible for a study to learn more about the experiences and needs of individuals with KS and their caretakers.

You May Qualify If You

- Are an individual diagnosed with Klinefelter syndrome age 14 to 26
- A parent or guardian of an individual with Klinefelter syndrome age 14 to 26

Location: Participation in the survey and optional post-survey interview can be done in a quiet private location of your choosing through the QR code below

Participation Involves

- Completion of a survey assessing your current progress and experiences in the transition from pediatric to adult care
- An optional post-survey interview further exploring these topics

Individuals with Klinefelter syndrome who participate in the survey will be given the option to enter themselves in a drawing for one of three \$100 gift cards to the vendor of their choosing.
