

# KidS Camp

## FALL 2024

- One Saturday per month from ~10am-2pm (4 total camp days).
- Participation includes camp activities, a fitness tracker, and completion of online and paper questionnaires. Option to complete biometric analysis.
- Participants will be compensated \$75 for each camp day.

---

**Participants Needed:** Day camp series for **kids ages 10-14 years** with Klinefelter syndrome (KS). This is a research study designed to expose kids to a variety of physical activities through a Camp Program to foster appreciation and interest in exercise and promote positive self-concept. **Activities may include hiking, biking, horseback riding, kayaking/canoeing, and miniature golf.**
